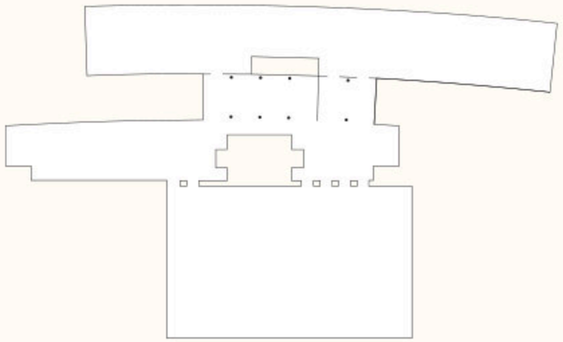
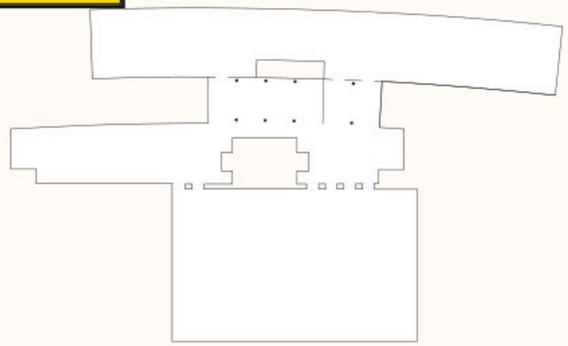
02 SPACE STUDY

The spaces available for the evening are generous. Their layout, however, remains highly fragmented.

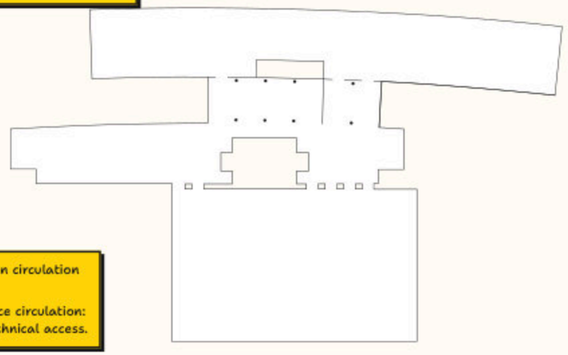
They divide into five main zones, each one cut off from the others.



On top of this fragmentation, the two ballrooms, Zurich and Geneva, stand far apart from each other.



The key issue therefore becomes the flow between these two rooms: it must stay as smooth as possible. To achieve this, we adopt a **served / servant** logic.



On the right, the main circulation of the guests.

On the left, the service circulation: cloakroom, toilets, technical access.

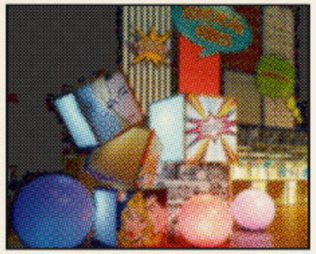
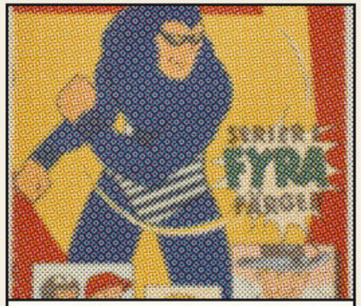
03 VISUAL CONCEPT

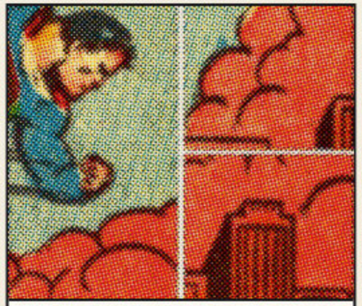
POWERDED BY SUPERHEROS



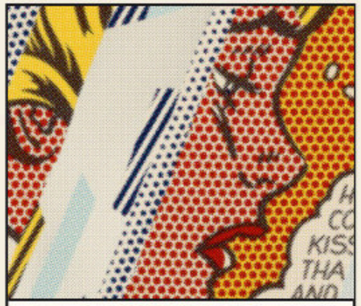


In the 1950s and 1960s, superheroes rose to become icons of American popular culture.

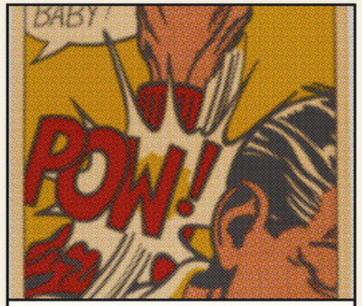
The comic book became their natural territory. There it invented a visual language designed to be direct, popular and spectacular.



Printed fast and cheap, these comics turned the dot screen into a visual signature, iconic almost by accident.



In the 1960s, Roy Lichtenstein isolated and enlarged these codes. The dot screen, or Ben Day dots, became his signature and brought the comic book into Pop Art.



Explosions, impacts, flashes and onomatopoeia then became graphic signs that read at once. **This is the vocabulary we make our own for the evening.**

04 SPATIAL TRANSLATION

A WORLD THAT CALLS FOR DENSITY

Pop Art works through accumulation, saturation and impact. To be convincing, its world must be generous, dense, immersive.

The context sets a particularly tight equation: a huge space to dress, **800 to 850 guests**, a low ceiling, many functional elements to fit in (stage, bars, buffets, high tables, lounges), and a decoration budget capped at **€40k**.

Trying to decorate the whole space would dilute this budget, and the visual impact along with it.

THE BIG PICTURE

The elements the event cannot do without become the scenography itself.

Seen in plan, the room reads like a monumental Pop Art painting after Lichtenstein: the explosion becomes the stage, the sparks spread out into lines of bars and buffets, the dot screen takes shape as rows of high tables and furniture.

As the room fills up, the guests complete the composition and bring it to life. **They are in the picture, they compose it.**

The composition also organises the flows. The stage anchors the far end of the main room, the grid of high tables guides the guests through the space, bars and lounges settle around the edges, the cloakroom and services stay in the background, following the served / servant logic.

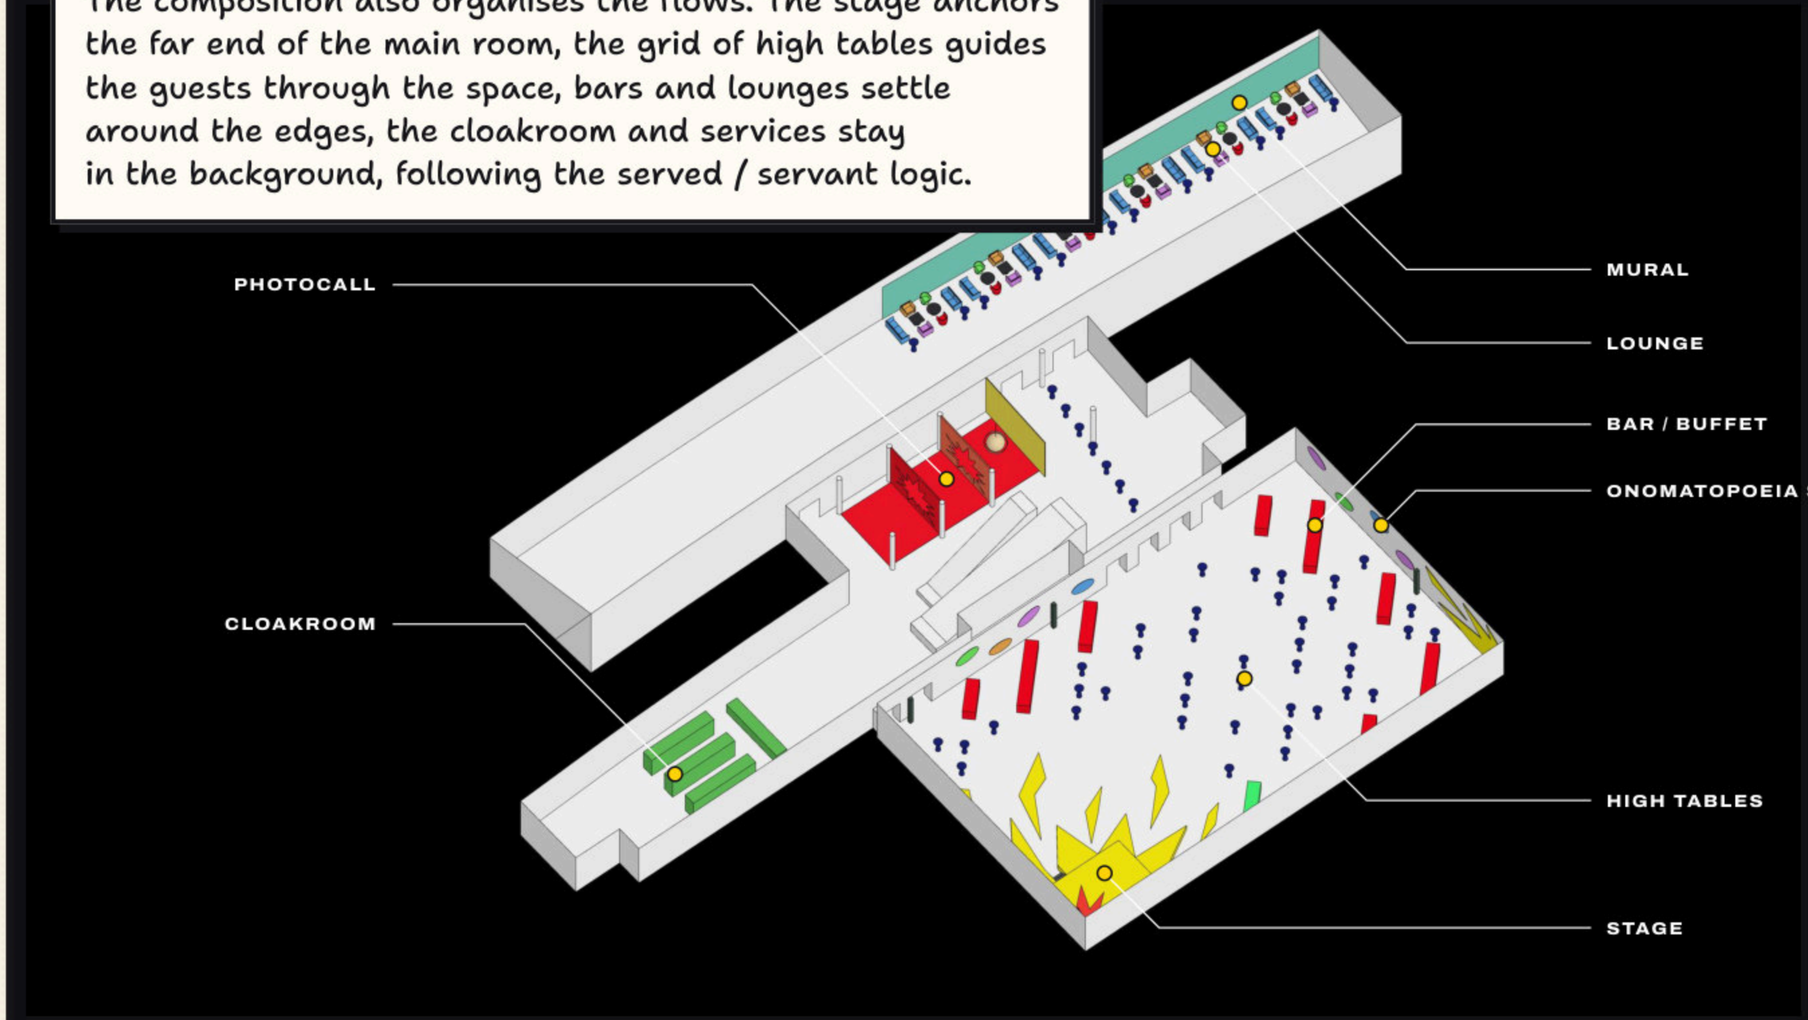
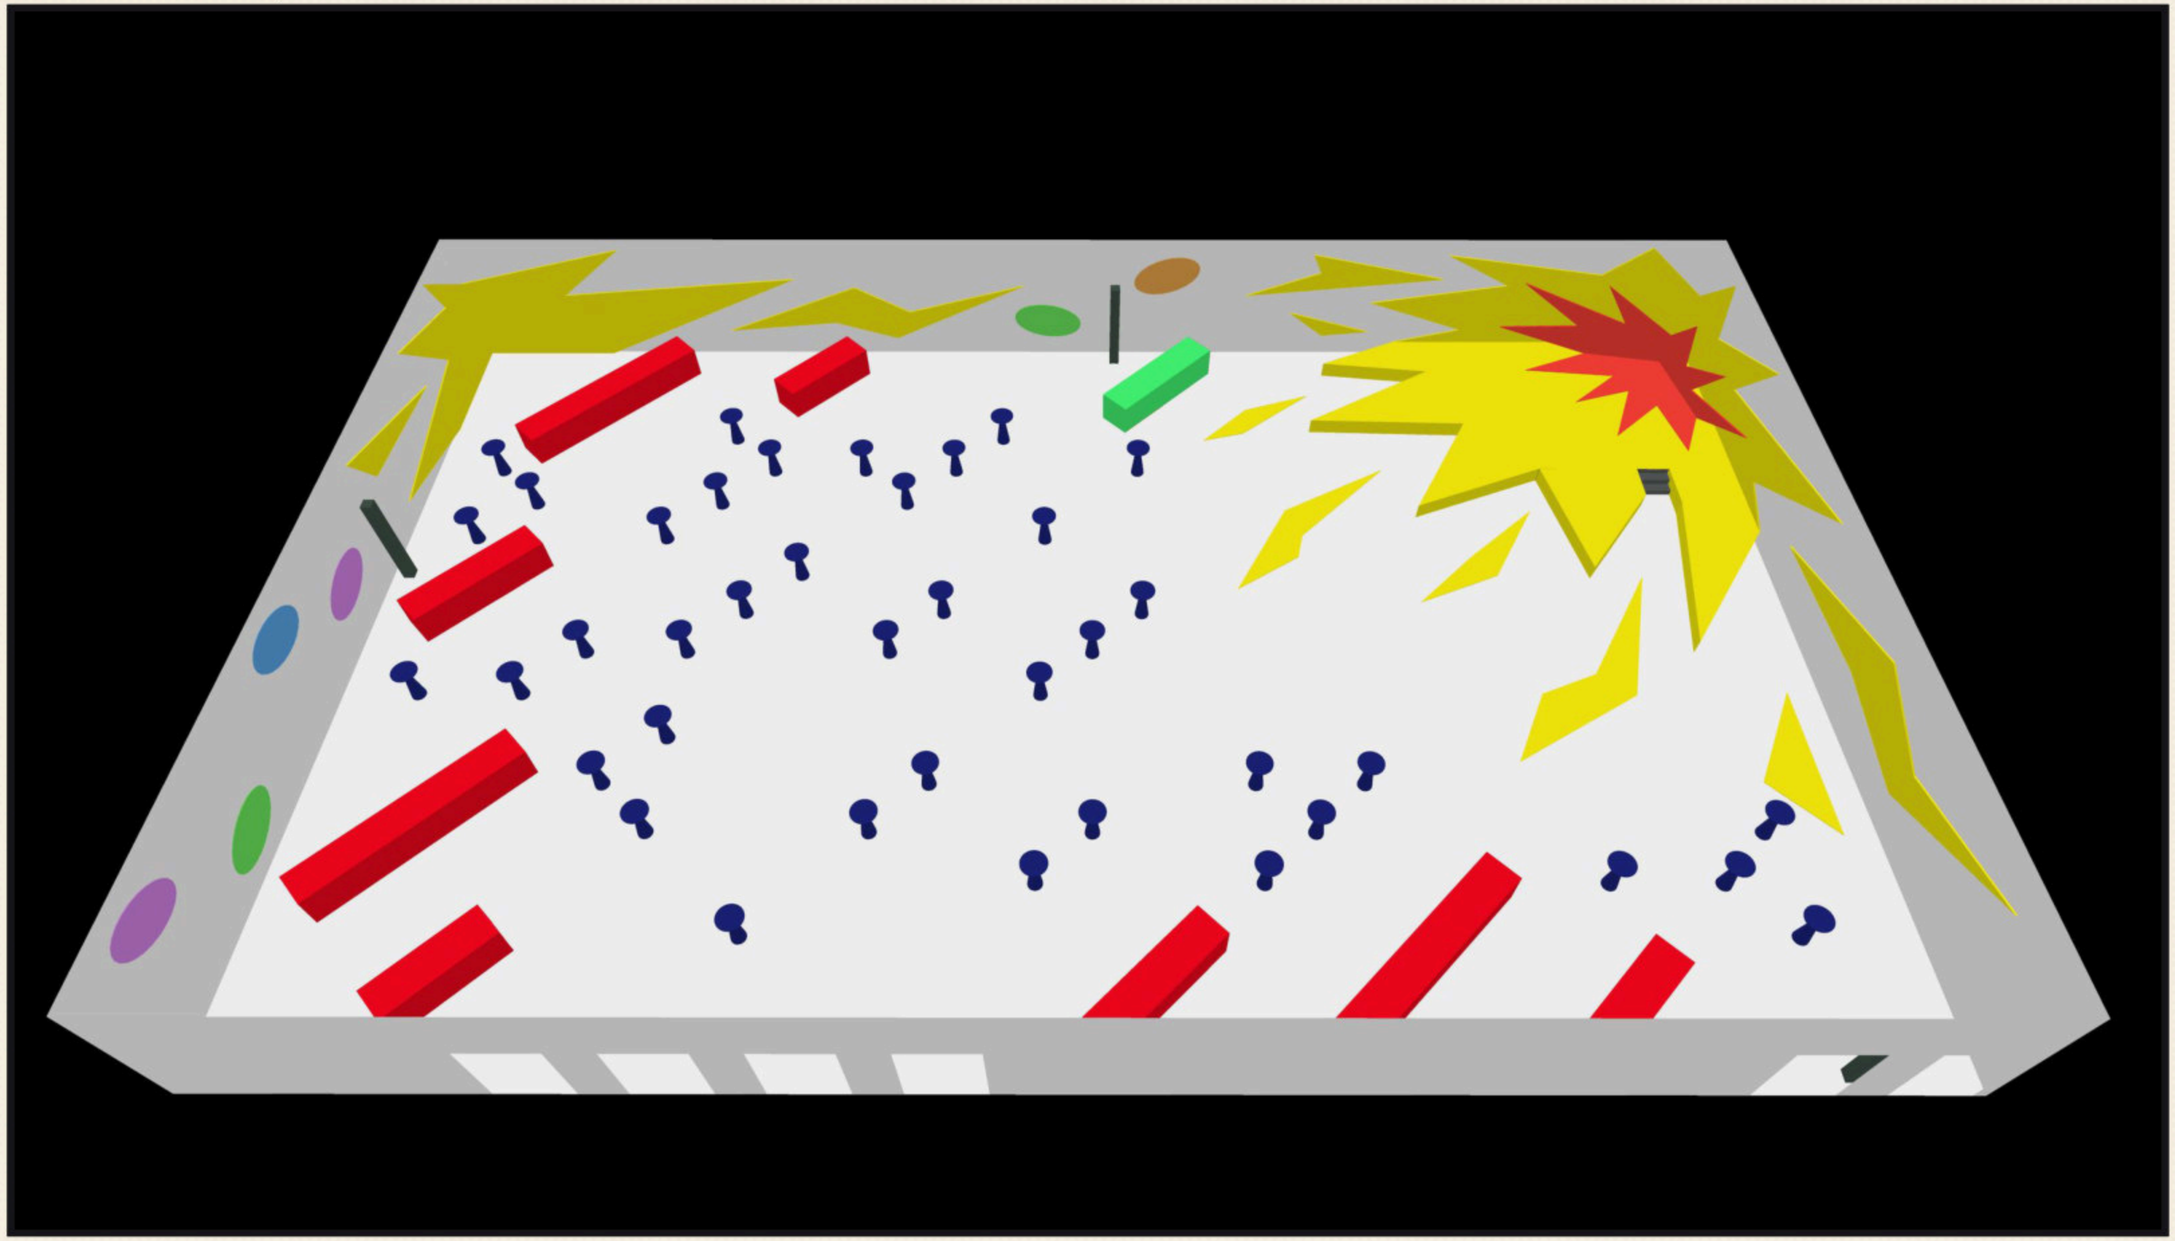
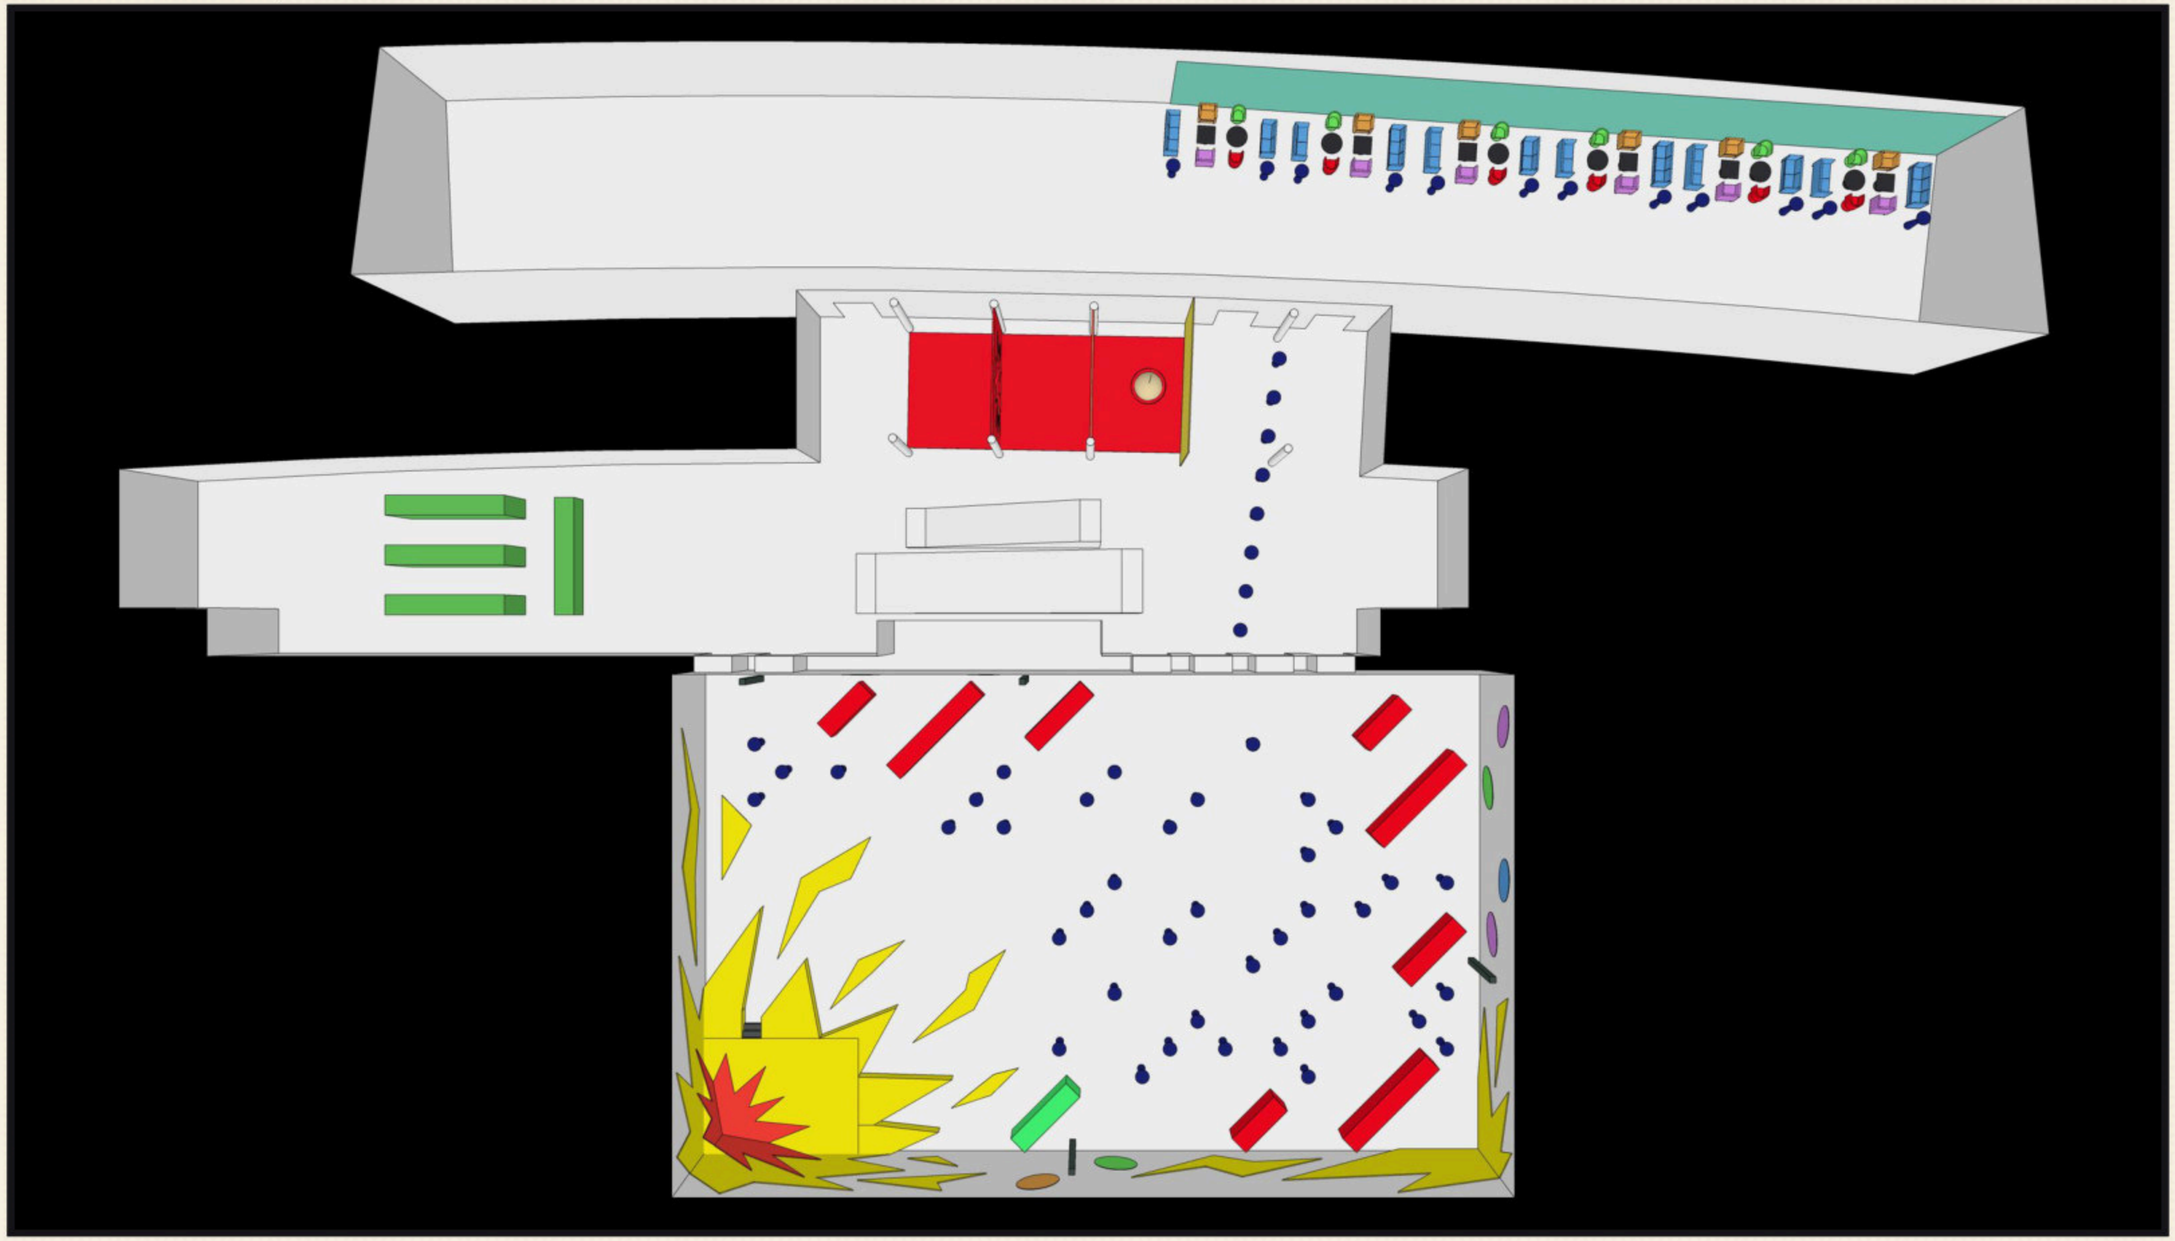
KRA-KOOM!
BECOMES THAT

The composition also organises the flows. The stage anchors the far end of the main room, the grid of high tables guides the guests through the space, bars and lounges settle around the edges, the cloakroom and services stay in the background, following the served / servant logic.







THE STAGE

An explosive scenography to carry the high point of the evening: the 90-minute live concert played by the teams.

The same stage then welcomes the DJ to tip the evening into party mode.

A Pop Art explosion bursts from the floor and the walls, and makes the stage the focal point of the whole room.

THE PHOTOCALL

"OUR DAILY PLANET"

Relive the golden age of superheroes from the inside, at the foot of the Daily Planet, renamed for the occasion: "Our Daily Planet".

An immersive photocall where every guest steps into the comic panel, right in the heart of the explosion.

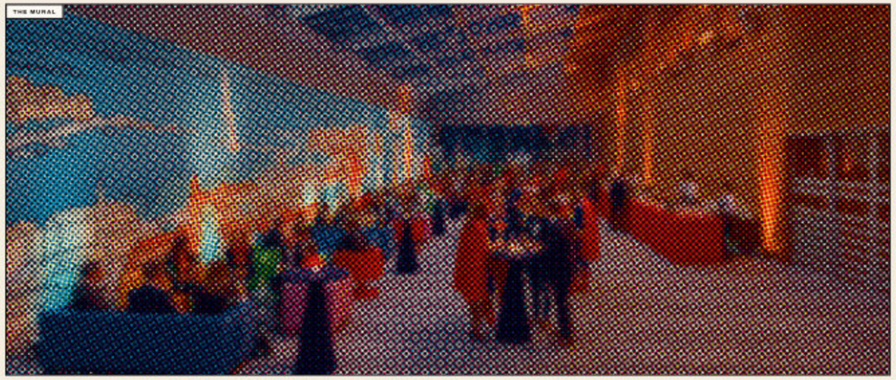
THE MURAL



EXAMPLE ILLUSTRATION FOR THE MURAL

FURNITURE

LOUNGE

6×	3-seater sofa
6×	2-seater sofa
24×	Lounge armchair
12×	Coffee table

CATERING

36 m	Buffet / bar module 2 m
68×	High table Ø 70–80 cm
40/60×	Bar stool
12/16×	Discreet bin

MURAL

1×	Printed banner 90 × 5 m
—	Fixing system

STAGE

24×	Sluga platform 100 × 200 × 50 cm
1×	Sluga stairs
6×	Sluga "spine"
48 m²	Stage covering
6×	Backdrop panels
6×	Burst-shaped floor carpet
6×	Burst-shaped wall pieces

CLOAKROOM

16 m	Clothes rails
6×	Counter module

PHOTOBOOTH

110 m²	Carpet
2×	Rigid backdrop 450 × 600 cm
1×	Soft backdrop 450 × 600 cm
1×	"Daily Planet" sphere Ø 150 cm

MISCELLANEOUS

4 m	Control booth to fit into the space
8×	Chromatic pools stickers
